

Concept links of texts used for each strategy

This program includes a variety of informational texts that cover a range of topics and themes. In each text, the written information is supported by high-quality visual material, including photographs, tables, diagrams, and maps.

The texts that have been selected for each lesson within a strategy lesson plan are linked through a common concept.

Strategy	Module 1 Concepts	Module 2 Concepts	Module 3 Concepts	Module 4 Concepts
Making Connections	Science and us	Weather and climate	Rights and responsibilities	Communication
Monitoring and Clarifying	Plants	The past	Technology	Survival and adaptation
Predicting and Inferring	The sea	Working together	Health and safety	Dangerous and challenging places
Questioning	Bugs and mini beasts	Animal lifetimes and life cycles	Survival	Endangered species and habitats
Summarizing	Moving things and people	Protecting our world	Talented animals	Cities
Visualizing	Animals and the wild	Caring for animals	Using tools	People making a difference
